

Nils Akonkwa Lwambwa

Software Engineer

Nairobi, Kenya | +254 701980154 | nilsako8@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Final-year Software Engineering student who designs, builds, and ships full-stack and mobile products end-to-end — including a live App Store application built and deployed solo. Comfortable across React, React Native, and Python, with a focus on turning ideas into working, real-world software rather than coursework exercises.

PROJECTS

Eventas — Live Events Discovery App (App Store Live) | *React Native, Firebase, Google Maps API, Expo, ...*

[Live App / Website](#)

- Designed and built a live, App Store–published iOS application solo end-to-end, helping users discover real-time events across Nairobi through an interactive attendance heatmap covering 50+ venues.
- Implemented location-aware features including in-venue chat and location-gated "stories," allowing users to post content only when physically present at a listed venue.
- Built a battery-conscious location tracking system that updates the attendance heatmap on significant movement events rather than continuous polling, balancing real-time accuracy with device battery life.
- Architected the backend on Firebase to support real-time chat, location data, and venue attendance at scale.

AI-Powered Hairstyle Try-On Application | *React, Python, Stable Diffusion*

[Source Code](#)

- Built a full-stack web application that lets users upload a selfie and preview themselves with a selected new hairstyle, generated using a Stable Diffusion based image pipeline.
- Developed a Python backend to serve the diffusion model and process image generation requests, paired with a React frontend for image upload and result rendering.
- Handled end-to-end image processing challenges including face/hair region handling to keep generated results realistic and consistent with the source photo.

FocusLearn | *React, Python, Ollama3*

[Source Code](#)

- A learning companion that combines task management, adaptive study aids, and focus-friendly reminders to support ADHD students in navigating academic life more effectively.

Investor-Facing Mining Cooperative Website | *React, Next.js, Tailwind CSS*

[Live Demo](#) | [Source Code](#)

- Designed and built a professional, credibility-driven website for a mining cooperative to support investor relations and fundraising efforts.

Swahili Conversational AI Bot | *PyTorch, Hugging Face, FastAPI, Ollama3*

[Source Code](#)

- Built a local LLaMA/Distil-model-based conversational bot focused on Swahili language accessibility and on-device performance.

WORK EXPERIENCE

Software Engineer — Cooperative Miniere Rising Star (COMRS)

Sep 2023 – Present

Bukavu, DR Congo · Remote-Part-time

- Designed and built the organization's investor-facing website (React, Next.js, Tailwind CSS) to support fundraising and credibility with stakeholders.

– Maintain system integrity and availability across the organization's software systems.

Co-Founder — Campus Kash

Nov 2024 – 2026

Nairobi, Kenya · Remote · Self-employed

– Co-founded and lead product/engineering for a campus Kash fintech venture, owning project planning and execution. Processed over 2000 transactions and managed up to 2 Million KSH in investments.

Back-End Developer — Terrvio Technologies

Jan 2024 – Jan 2025

Nairobi, Kenya · Hybrid · Part-time

– Built and maintained backend services and supported marketing operations.

EDUCATION

United States International University – Africa (USIU-A)

Nairobi, Kenya

Bachelor of Science in Software Engineering

Expected Graduation: 2027

TECHNICAL SKILLS

Languages: JavaScript/TypeScript, Python, Java, SQL, HTML/CSS

Frameworks & Libraries: React, React Native, Node.js, Next.js, Expo, FastAPI

Platforms & Tools: Firebase, MongoDB, Git/GitHub, Docker, REST APIs, CI/CD, n8n, AWS (basics), Netlify

AI & ML: PyTorch, Hugging Face, LLMs, Stable Diffusion, OpenAI API, Anthropic API, LangChain, Vector Databases

Other: Mobile app deployment (App Store and Android)

LANGUAGES

French : Native | **English** : Fluent | **Swahili**: Fluent
